Exchange Margin Trading Facility (MTF)

Features of MTF:

- Allow investors to create leverage position
- The positions can be created against the available margin which can be in the form of cash or Group 1 IFIN approved shares as collateral.
- MTF account can be maintained up to T+334 days (T = MTF account opened day whereas N = means a number of days the MTF account maintained with IFIN).
- Securities allowed under MTF are predefined by SEBI and Exchanges from time to time.
- Investors who wish to avail the MTF may give consent by signing / accepting Agreement & Terms and Conditions of MTF product. It ensures investors are completely aware of the risk and rewards of availing this product.

Benefits for Investors:

- MTF is ideal for investors looking to take benefit from short-term price movements in the Stock market but who may not have sufficient resources.
- Utilization of securities available in portfolio / demat account (using the shares as approved collateral for creation of margin pledge).
- Improve the rate of return on the capital deployed.
- Enhance the buying power of the investors.
- The product is prudently regulated by the regulator and exchanges.

Important Considerations and Risks

- The product is subject to applicable market risk
- Minimum Balance Requirement : Clients are expected to maintain the required margin always in MTF trading account.
- Interest Cost : Interest will be charged under MTF product for the leveraged positions and can accumulate over a period of time.
